**EAST RESOURCES ACQUISITION COMPANY**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2020**  
**(Unaudited)**

**NOTE 1. DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS**

East Resources Acquisition Company (the "Company") is a newly organized blank check company incorporated in Delaware on May 22, 2020 for the purpose of effecting a merger, capital stock exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses (the "Business Combination"). While the Company may pursue an acquisition opportunity in any business, industry, sector or geographical location, it intends to focus its search for a target business in the energy industry in North America. The Company is an emerging growth company and, as such, the Company is subject to all of the risks associated with emerging growth companies.

As of June 30, 2020, the Company had not commenced any operations. All activity for the period from May 22, 2020 (inception) through June 30, 2020 relates to the Company's formation and its initial public offering ("Initial Public Offering"), which is described below. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income from the proceeds derived from the Initial Public Offering.

The registration statement for the Company's Initial Public Offering was declared effective on July 22, 2020. On July 27, 2020, the Company consummated the Initial Public Offering of 30,000,000 units (the "Units" and, with respect to the shares of Class A common stock included in the Units sold, the "Public Shares"), at \$10.00 per Unit, generating gross proceeds of \$300,000,000, which is described in Note 3.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the sale of 8,000,000 warrants (the "Private Placement Warrants") at a price of \$1.00 per Private Placement Warrant in a private placement to East Sponsor, LLC (the "Sponsor"), generating gross proceeds of \$8,000,000, which is described in Note 4.

On August 25, 2020, the underwriters exercised their over-allotment option in full, resulting in an additional 4,500,000 Units issued for total gross proceeds of \$45,000,000. In connection with the underwriters' exercise of their over-allotment option in full, the Company also consummated the sale of an additional 900,000 Private Placement Warrants at \$1.00 per Private Placement Warrant, generating total proceeds of \$900,000. A total of \$45,000,000 was deposited into the Trust Account, bringing the aggregate proceeds held in the Trust Account to \$345,000,000.

Transaction costs amounted to \$19,840,171, consisting of \$6,900,000 of underwriting fees, \$12,075,000 of deferred underwriting fees and \$865,171 of other offering costs. In addition, cash of \$912,561 was held outside of the Trust Account (as defined below) and is available for working capital purposes.

Following the closing of the Initial Public Offering on July 27, 2020 and the exercise of the over-allotment option on August 25, 2020, an amount of \$345,000,000 (\$10.00 per Unit) from the net proceeds of the sale of the Units in the Initial Public Offering and the sale of the Private Placement Warrants was placed in a trust account (the "Trust Account") located in the United States and invested only in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act of 1940, as amended (the "Investment Company Act"), with a maturity of 185 days or less or in any open-ended investment company that holds itself out as a money market fund meeting certain conditions of Rule 2a-7 of the Investment Company Act, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the funds in the Trust Account to the Company's stockholders, as described below.

The Company's management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering and the sale of the Private Placement Warrants, although substantially all of the net proceeds are intended to be applied generally toward completing a Business Combination. The Company must complete its initial Business Combination with one or more target businesses that together have a fair market value equal to at least 80% of the net assets held in the Trust Account (excluding the amount of any deferred underwriting commissions held in the Trust Account) at the time of the agreement to enter into a Business Combination. The Company will only complete a Business Combination if the post-Business Combination company owns or acquires 50% or more of the issued and outstanding voting securities of the target or otherwise acquires a controlling interest in the target business sufficient for it not to be required to register as an investment company under the Investment Company Act. There is no assurance that the Company will be able to successfully effect a Business Combination.

**EAST RESOURCES ACQUISITION COMPANY**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2020**  
**(Unaudited)**

The Company will provide its stockholders with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination either (i) in connection with a stockholder meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek stockholder approval of a Business Combination or conduct a tender offer will be made by the Company. The stockholders will be entitled to redeem their shares for a pro rata portion of the amount held in the Trust Account (initially \$10.00 per share), calculated as of two business days prior to the completion of a Business Combination, including any pro rata interest earned on the funds held in the Trust Account and not previously released to the Company to pay its tax obligations. There will be no redemption rights upon the completion of a Business Combination with respect to the Company's warrants.

In such case, the Company will proceed with a Business Combination if the Company has net tangible assets of at least \$5,000,001 upon consummation of such Business Combination and a majority of the shares voted are voted in favor of the Business Combination. If a stockholder vote is not required under applicable law or stock exchange listing requirements and the Company does not decide to hold a stockholder vote for business or other reasons, the Company will, pursuant to its Certificate of Incorporation (the "Certificate of Incorporation"), conduct the redemptions pursuant to the tender offer rules of the Securities and Exchange Commission ("SEC"), and file tender offer documents containing substantially the same information as would be included in a proxy statement with the SEC prior to completing a Business Combination. If the Company seeks stockholder approval in connection with a Business Combination, the holders of the Founder Shares have agreed to vote their Founder Shares (as defined in Note 5) and any Public Shares purchased in or after the Initial Public Offering in favor of approving a Business Combination and to waive their redemption rights with respect to any such shares in connection with a stockholder vote to approve a Business Combination. However, in no event will the Company redeem its Public Shares in an amount that would cause its net tangible assets to be less than \$5,000,001. In such case, the Company would not proceed with the redemption of its Public Shares and the related Business Combination, and instead may search for an alternate Business Combination. Additionally, each public stockholder may elect to redeem its Public Shares, without voting, and if they do vote, irrespective of whether they vote for or against a proposed Business Combination.

Notwithstanding the foregoing, if the Company seeks stockholder approval of a Business Combination and it does not conduct redemptions pursuant to the tender offer rules, the Company's Certificate of Incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a "group" (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the "Exchange Act")), will be restricted from redeeming its shares with respect to more than an aggregate of 20% of the Public Shares without the Company's prior written consent.

The Sponsor has agreed (a) to waive its redemption rights with respect to any Founder Shares and Public Shares held by it in connection with the completion of a Business Combination and (b) not to propose an amendment to the Certificate of Incorporation (i) to modify the substance or timing of the Company's obligation to redeem 100% of the Public Shares if the Company does not complete a Business Combination within the Combination Period (as defined below) or (ii) with respect to any other provision relating to stockholders' rights or pre-initial Business Combination activity, unless the Company provides the public stockholders with the opportunity to redeem their Public Shares in conjunction with any such amendment and (iii) to waive its rights to liquidating distributions from the Trust Account with respect to the Founder Shares if the Company fails to complete a Business Combination.

The Company will have until July 27, 2022 to complete a Business Combination (the "Combination Period"). If the Company is unable to complete a Business Combination within the Combination Period, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but no more than 10 business days thereafter, redeem 100% of the outstanding Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the remaining stockholders and the Company's board of directors, dissolve and liquidate, subject in each case to its obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.

**EAST RESOURCES ACQUISITION COMPANY**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2020**  
**(Unaudited)**

The Sponsor has agreed to waive its liquidation rights with respect to the Founder Shares if the Company fails to complete a Business Combination within the Combination Period. However, if the Sponsor acquires Public Shares in or after the Proposed Initial Public Offering, such Public Shares will be entitled to liquidating distributions from the Trust Account if the Company fails to complete a Business Combination within the Combination Period. The underwriters have agreed to waive their rights to their deferred underwriting commission (see Note 6) held in the Trust Account in the event the Company does not complete a Business Combination within the Combination Period and, in such event, such amounts will be included with the funds held in the Trust Account that will be available to fund the redemption of the Public Shares. In the event of such distribution, it is possible that the per share value of the assets remaining available for distribution will be less than the Initial Public Offering price per Unit (\$10.00).

The Sponsor has agreed that it will be liable to the Company, if and to the extent any claims by a third party for services rendered or products sold to the Company, or by a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account to below (1) \$10.00 per Public Share or (2) such lesser amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account due to reductions in the value of trust assets, in each case net of the amount of interest which may be withdrawn to pay taxes. This liability will not apply with respect to any claims by a third party who executed a waiver of any and all rights to seek access to the Trust Account nor will it apply to any claims under the Company's indemnity of the underwriters of the Initial Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers (other than the Company's independent public accountants), prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Presentation**

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and in accordance with the instructions to Form 10-Q and Article 8 of Regulation S-X promulgated under the Securities Act. Certain information or footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted, pursuant to the rules and regulations of the SEC for interim financial reporting. Accordingly, they do not include all the information and footnotes necessary for a complete presentation of financial position, results of operations, or cash flows. In the opinion of management, the accompanying unaudited condensed financial statements include all adjustments, consisting of a normal recurring nature, which are necessary for a fair presentation of the financial position, operating results and cash flows for the periods presented.

The accompanying unaudited condensed financial statements should be read in conjunction with the Company's prospectus for its Initial Public Offering as filed with the SEC on July 24, 2020, as well as the Company's Current Reports on Form 8-K, as filed with the SEC on July 27, 2020 and July 31, 2020. The interim results for the period from May 22, 2020 (inception) through June 30, 2020 are not necessarily indicative of the results to be expected for the period ending December 31, 2020 or for any future periods.

**Emerging Growth Company**

The Company is an "emerging growth company," as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

**EAST RESOURCES ACQUISITION COMPANY**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2020**  
**(Unaudited)**

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

**Use of Estimates**

The preparation of condensed financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from those estimates.

**Cash and Cash Equivalents**

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company did not have any cash equivalents as of June 30, 2020.

**Offering Costs**

Offering costs consist of legal, accounting, underwriting fees and other costs incurred through the balance sheet date that are directly related to the Initial Public Offering. Offering costs amounting to \$19,840,171 were charged to stockholders' equity upon the completion of the Initial Public Offering.

**Income Taxes**

The Company follows the asset and liability method of accounting for income taxes under ASC 740, "Income Taxes." Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

ASC 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of June 30, 2020. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

The provision for income taxes was deemed to be de minimis for the period from May 22, 2020 (inception) through June 30, 2020.

**EAST RESOURCES ACQUISITION COMPANY**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2020**  
**(Unaudited)**

On March 27, 2020, President Trump signed the Coronavirus Aid, Relief, and Economic Security “CARES” Act into law. The CARES Act includes several significant business tax provisions that, among other things, would eliminate the taxable income limit for certain net operating losses (“NOL”) and allow businesses to carry back NOLs arising in 2018, 2019 and 2020 to the five prior years, suspend the excess business loss rules, accelerate refunds of previously generated corporate alternative minimum tax credits, generally loosen the business interest limitation under IRC section 163(j) from 30 percent to 50 percent among other technical corrections included in the Tax Cuts and Jobs Act tax provisions.

**Net Loss per Common Share**

Net loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period, excluding shares of common stock subject to forfeiture. Weighted average shares were reduced for the effect of an aggregate of 1,125,000 shares of common stock that were subject to forfeiture if the over-allotment option was not exercised by the underwriters (see Note 5). At June 30, 2020, the Company did not have any dilutive securities and other contracts that could, potentially, be exercised or converted into shares of common stock and then share in the earnings of the Company. As a result, diluted loss per share is the same as basic loss per share for the period presented.

**Concentration of Credit Risk**

Financial instruments that potentially subject the Company to concentrations of credit risk consist of a cash account in a financial institution, which, at times, may exceed the Federal Depository Insurance Coverage of \$250,000. The Company has not experienced losses on this account and management believes the Company is not exposed to significant risks on such account.

**Fair Value of Financial Instruments**

The fair value of the Company’s assets and liabilities, which qualify as financial instruments under ASC Topic 820, “Fair Value Measurement,” approximates the carrying amounts represented in the accompanying condensed balance sheet, primarily due to their short-term nature.

**Recent Accounting Standards**

Management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the Company’s condensed financial statements.

**Risks and Uncertainties**

In March 2020, the World Health Organization declared the outbreak of a novel coronavirus (COVID-19) as a pandemic which continues to spread throughout the United States and the World. As of the date the financial statements were issued, there was considerable uncertainty around the expected duration of this pandemic. The Company has concluded that while it is reasonably possible that COVID-19 could have a negative effect on identifying a target company for a Business Combination, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

**EAST RESOURCES ACQUISITION COMPANY**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2020**  
**(Unaudited)**

**NOTE 3. PUBLIC OFFERING**

Pursuant to the Initial Public Offering, the Company sold 34,500,000 Units, which includes the full exercise by the underwriters of their over-allotment option in the amount of 4,500,000 Units, at a purchase price of \$10.00 per Unit. Each Unit consists of one share of Class A common stock and one-half of one redeemable warrant ("Public Warrant"). Each whole Public Warrant entitles the holder to purchase one share of Class A common stock at a price of \$11.50 per share, subject to adjustment (see Note 7).

**NOTE 4. PRIVATE PLACEMENT**

Simultaneously with the closing of the Initial Public Offering, the Sponsor purchased an aggregate of 8,900,000 Private Placement Warrants at a price of \$1.00 per Private Placement Warrant, for an aggregate purchase price of \$8,900,000. Each Private Placement Warrant is exercisable for one share of Class A common stock at a price of \$11.50 per share, subject to adjustment (see Note 7). The proceeds from the sale of the Private Placement Warrants will be added to the net proceeds from the Proposed Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the proceeds from the sale of the Private Placement Warrants held in the Trust Account will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Warrants will expire worthless.

**NOTE 5. RELATED PARTY TRANSACTIONS**

**Founder Shares**

On June 1, 2020, the Sponsor purchased 8,625,000 shares (the "Founder Shares") of the Company's Class B common stock, par value \$0.0001 per share (the "Class B common stock"), for an aggregate price of \$25,000. The Founder Shares will automatically convert into Class A common stock on a one-for-one basis at the time of the Company's initial Business Combination and are subject to certain transfer restrictions. The Founder Shares included up to an aggregate of 1,125,000 shares subject to forfeiture to the extent that the over-allotment option was not exercised in full or in part by the underwriters so that the Founder Shares would represent 20% of the Company's issued and outstanding shares after the Initial Public Offering. As a result of the underwriters' election to fully exercise their over-allotment option, 1,125,000 Founder Shares are no longer subject to forfeiture.

**Promissory Note — Related Party**

On June 24, 2020, the Sponsor agreed to loan the Company an aggregate of up to \$300,000 to cover expenses related to the Initial Public Offering pursuant to a promissory note (the "Note"). The Note was non-interest bearing and payable on the earlier of August 31, 2020 or the completion of the Initial Public Offering. As of June 30, 2020, there was \$52,345 outstanding under the Note. The outstanding balance under the Note of \$97,126 was repaid at the closing of the Initial Public Offering on July 27, 2020.

**Advances from Related Party**

Affiliates of the Company and of the Sponsor advanced the Company an aggregate of \$265,763 to cover expenses related to the Initial Public Offering. The advances were non-interest bearing and due on demand. As of June 30, 2020, there were no advances outstanding. The outstanding advances of \$265,763 were repaid at the closing of the Initial Public Offering on July 27, 2020.

**EAST RESOURCES ACQUISITION COMPANY**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2020**  
**(Unaudited)**

**Related Party Loans**

In order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors may, but are not obligated to, loan the Company funds as may be required ("Working Capital Loans"). If the Sponsor makes any Working Capital Loans, such loans may be converted into warrants, at the price of \$1.50 per warrant at the option of the lender. Such warrants would be identical to the Private Placement Warrants, including as to exercise price, exercisability and exercise period. If the Company completes a Business Combination, the Company would repay the Working Capital Loans out of the proceeds held in the Trust Account released to the Company. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination is not completed, the Company may use a portion of the proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans.

**NOTE 6. COMMITMENTS**

**Registration Rights**

Pursuant to a registration rights agreement entered into on July 23, 2020, the holders of the Founder Shares, Private Placement Warrants and warrants that may be issued upon conversion of the Working Capital Loans (and any shares of Class A common stock issuable upon the exercise of the Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans and upon conversion of the Founder Shares) are entitled to registration rights. The holders of these securities will be entitled to make up to three demands, excluding short form demands, that the Company register such securities. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to the completion of a Business Combination. However, the registration rights agreement provides that the Company will not permit any registration statement filed under the Securities Act to become effective until termination of the applicable lockup period. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

**Underwriting Agreement**

The underwriters were paid a cash underwriting discount of \$6,900,000 in the aggregate. In addition, the underwriters are entitled to a deferred fee of \$0.35 per Unit, or \$12,075,000. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

**Forward Purchase Agreement**

On July 2, 2020, the Company entered into a forward purchase agreement pursuant to which East Asset Management, LLC ("East Asset Management"), an affiliate of the Sponsor, has agreed to purchase an aggregate of up to 5,000,000 units (the "forward purchase units"), consisting of one share of Class A common stock (the "forward purchase shares") and one-half of one warrant to purchase one share of Class A common stock (the "forward purchase warrants"), for \$10.00 per unit, or an aggregate maximum amount of \$50,000,000, in a private placement that will close simultaneously with the closing of a Business Combination. East Asset Management will purchase a number of forward purchase units that will result in gross proceeds to the Company necessary to enable the Company to consummate a Business Combination and pay related fees and expenses, after first applying amounts available to the Company from the Trust Account (after paying the deferred underwriting discount and giving effect to any redemptions of Public Shares) and any other financing source obtained by the Company for such purpose at or prior to the consummation of a Business Combination, plus any additional amounts mutually agreed by the Company and East Asset Management to be retained by the post-business combination company for working capital or other purposes. East Asset Management's obligation to purchase forward purchase units will, among other things, be conditioned on the Business Combination (including the target assets or business, and the terms of the Business Combination) being reasonably acceptable to East Asset Management and on a requirement that such initial Business Combination is approved by a unanimous vote of the Company's board of directors. In determining whether a target is reasonably acceptable to East Asset Management, the Company expects that East Asset Management would consider many of the same criteria as the Company will consider but will also consider whether the investment is an appropriate investment for East Asset Management.

**EAST RESOURCES ACQUISITION COMPANY**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2020**  
**(Unaudited)**

**NOTE 7. STOCKHOLDERS' EQUITY**

**Preferred Stock**—The Company is authorized to issue 1,000,000 shares of preferred stock with a par value of \$0.0001 per share with such designations, voting and other rights and preferences as may be determined from time to time by the Company's board of directors. At June 30, 2020, there were no shares of preferred stock issued or outstanding.

**Class A Common Stock**—The Company is authorized to issue 200,000,000 shares of Class A common stock with a par value of \$0.0001 per share. At June 30, 2020, there were no shares of Class A common stock issued or outstanding.

**Class B Common Stock**—The Company is authorized to issue 20,000,000 shares of Class B common stock with a par value of \$0.0001 per share. At June 30, 2020, there were 8,625,000 shares of Class B common stock issued and outstanding.

Common stockholders of record are entitled to one vote for each share held on all matters to be voted on by stockholders. Holders of the Class A common stock and holders of the Class B common stock will vote together as a single class on all matters submitted to a vote of the Company's stockholders, except as required by law.

The Class B common stock are identical to the shares of Class A common stock included in the Units sold in the Initial Public Offering, and holders of Class B common stock have the same stockholder rights as public stockholders, except that (i) the Class B common stock are subject to certain transfer restrictions, as described in more detail below, (ii) the Sponsor, officers and directors have entered into a letter agreement with the Company, pursuant to which they have agreed (A) to waive their redemption rights with respect to any Class B common stock and any Public Shares held by them in connection with the completion of a Business Combination and (B) to waive their rights to liquidating distributions from the Trust Account with respect to any Class B common stock held by them if the Company fails to complete a Business Combination within the Combination Period, although they will be entitled to liquidating distributions from the Trust Account with respect to any Public Shares they hold if the Company fails to complete our Business Combination within the Combination Period, (iii) the Class B common stock will automatically convert into shares of Class A common stock at the time of a Business Combination, on a one-for-one basis, subject to adjustment pursuant to certain anti-dilution rights and (iv) are subject to registration rights. If the Company submits a Business Combination to the public stockholders for a vote, the Sponsor has agreed to vote any Class B common stock held by it and any Public Shares purchased during or after the Initial Public Offering in favor of a Business Combination.

With certain limited exceptions, the shares of Class B common stock are not transferable, assignable or salable (except to the Company's officers and directors and other persons or entities affiliated with the Sponsor, each of whom will be subject to the same transfer restrictions) until the earlier of (A) one year after the completion of a Business Combination or (B) subsequent to a Business Combination, (x) if the last sale price of the Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after a Business Combination, or (y) the date on which the Company completes a liquidation, merger, capital stock exchange, reorganization or other similar transaction that results in all of the stockholders having the right to exchange their shares of common stock for cash, securities or other property.

**Warrants**—Public Warrants may only be exercised for a whole number of shares. No fractional shares will be issued upon exercise of the Public Warrants. The Public Warrants will become exercisable on the later of (a) 30 days after the completion of a Business Combination and (b) 12 months from the closing of the Proposed Offering. The Public Warrants will expire five years from the completion of a Business Combination, at 5:00 p.m., New York City time, or earlier upon redemption or liquidation.

The Company will not be obligated to deliver any shares of Class A common stock pursuant to the exercise of a Public Warrant and will have no obligation to settle such Public Warrant exercise unless a registration statement under the Securities Act with respect to the shares of Class A common stock underlying the warrants is then effective and a prospectus relating thereto is current, subject to the Company satisfying its obligations with respect to registration, or a valid exemption from registration is available. No warrant will be exercisable and the Company will not be obligated to issue a share of Class A common stock upon exercise of a warrant unless the share of Class A common stock issuable upon such warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the warrants.

**EAST RESOURCES ACQUISITION COMPANY**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2020**  
**(Unaudited)**

The Company has agreed that as soon as practicable, but in no event later than 20 business days after the closing of a Business Combination, it will use its commercially reasonable efforts to file with the SEC a registration statement for the registration, under the Securities Act, of the shares of Class A common stock issuable upon exercise of the warrants. The Company will use its commercially reasonable efforts to cause the same to become effective and to maintain the effectiveness of such registration statement, and a current prospectus relating thereto, until the expiration or redemption of the warrants in accordance with the provisions of the warrant agreement. If a registration statement covering the issuance of the shares of Class A common stock issuable upon exercise of the warrants is not effective by the 60th business day after the closing of a Business Combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption. In addition, if the shares of Class A common stock are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a “covered security” under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of the Public Warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company elects to do so, the Company will not be required to file or maintain in effect a registration statement, but it will use its best efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

*Redemption of Warrants for Cash*—Once the warrants become exercisable, the Company may redeem the outstanding Public Warrants for cash:

- in whole and not in part;
- at a price of \$0.01 per Public Warrant;
- upon not less than 30 days’ prior written notice of redemption to each warrant holder; and
- if, and only if, the last sale price of the Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which the Company sends the notice of redemption to the warrant holders.

If and when the warrants become redeemable by the Company, the Company may exercise its redemption right even if it is unable to register or qualify the underlying securities for sale under all applicable state securities laws. However, the Company will not redeem the warrants unless an effective registration statement under the Securities Act covering the shares of Class A common stock issuable upon exercise of the warrants is effective and a current prospectus relating to those shares of Class A common stock is available throughout the 30-day redemption period, except if the warrants may be exercised on a cashless basis and such cashless exercise is exempt from registration under the Securities Act.

*Redemption of Warrants for Shares of Class A Common Stock*—Once the warrants become exercisable, the Company may redeem the outstanding warrants for shares of Class A common stock:

- in whole and not in part;
- at a price equal to a number of shares of Class A common stock to be determined by reference to the agreed table set forth in the warrant agreement based on the redemption date and the “fair market value” of the Class A common stock;
- upon not less than 30 days’ prior written notice of redemption to each warrant holder; and
- if, and only if, the last sale price of the Class A common stock equals or exceeds \$10.00 per share (as adjusted per share splits, share dividends, reorganizations, recapitalizations and the like) on the trading day prior to the date on which the Company sends the notice of redemption to the warrant holders.

The exercise price and number of shares of Class A common stock issuable upon exercise of the warrants may be adjusted in certain circumstances including in the event of a stock dividend, or recapitalization, reorganization, merger or consolidation. However, except as described below, the warrants will not be adjusted for issuance of Class A common stock at a price below its exercise price. Additionally, in no event will the Company be required to net cash settle the warrants. If the Company is unable to complete a Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of warrants will not receive any of such funds with respect to their warrants, nor will they receive any distribution from the Company's assets held outside of the Trust Account with the respect to such warrants. Accordingly, the warrants may expire worthless.

**EAST RESOURCES ACQUISITION COMPANY**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2020**  
**(Unaudited)**

In addition, if (x) the Company issues additional shares of Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of a Business Combination at an issue price or effective issue price of less than \$9.20 per share of Class A common stock (with such issue price or effective issue price to be determined in good faith by the Company's board of directors, and in the case of any such issuance to the Sponsor or its affiliates, without taking into account any Founder Shares held by the Sponsor or such affiliates, as applicable, prior to such issuance) (the "Newly Issued Price"), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of a Business Combination on the date of the completion of a Business Combination (net of redemptions), and (z) the volume weighted average trading price of the Company's shares of Class A common stock during the 20 trading day period starting on the trading day prior to the day on which the Company completes a Business Combination (such price, the "Market Value") is below \$9.20 per share, the exercise price of the Public Warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 and \$18.00 per share redemption trigger prices described above adjacent to "Redemption of Warrants For Cash" and "Redemption of Warrants For Shares of Class A Common Stock" will be adjusted (to the nearest cent) to be equal to 100% and 180% of the higher of the Market Value and the Newly Issued Price, respectively.

The Private Placement Warrants are identical to the Public Warrants underlying the Units sold in the Initial Public Offering, except that (x) the Private Placement Warrants and the shares of Class A common stock issuable upon the exercise of the Private Placement Warrants will not be transferable, assignable or salable until 30 days after the completion of a Business Combination, subject to certain limited exceptions, (y) the Private Placement Warrants will be exercisable on a cashless basis and be non-redeemable so long as they are held by the initial purchasers or their permitted transferees and (z) the Private Placement Warrants and the shares of Class A common stock issuable upon exercise of the Private Placement Warrants will be entitled to registration rights. If the Private Placement Warrants are held by someone other than the initial purchasers or their permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the Public Warrants.

**NOTE 8. SUBSEQUENT EVENTS**

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the financial statements were issued. Other than as described in these financial statements, the Company did not identify any subsequent events that would have required adjustment or disclosure in the financial statements.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

References in this report (the "Quarterly Report") to "we," "us" or the "Company" refer to East Resources Acquisition Company. References to our "management" or our "management team" refer to our officers and directors, references to the "Sponsor" refer to East Sponsor, LLC. The following discussion and analysis of the Company's financial condition and results of operations should be read in conjunction with the financial statements and the notes thereto contained elsewhere in this Quarterly Report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.

### Special Note Regarding Forward-Looking Statements

This Quarterly Report includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act") that are not historical facts, and involve risks and uncertainties that could cause actual results to differ materially from those expected and projected. All statements, other than statements of historical fact included in this Form 10-Q including, without limitation, statements in this "Management's Discussion and Analysis of Financial Condition and Results of Operations" regarding the Company's financial position, business strategy and the plans and objectives of management for future operations, are forward-looking statements. Words such as "expect," "believe," "anticipate," "intend," "estimate," "seek" and variations and similar words and expressions are intended to identify such forward-looking statements. Such forward-looking statements relate to future events or future performance, but reflect management's current beliefs, based on information currently available. A number of factors could cause actual events, performance or results to differ materially from the events, performance and results discussed in the forward-looking statements. For information identifying important factors that could cause actual results to differ materially from those anticipated in the forward-looking statements, please refer to the Risk Factors section of the Company's final prospectus for its Initial Public Offering filed with the U.S. Securities and Exchange Commission (the "SEC"). The Company's securities filings can be accessed on the EDGAR section of the SEC's website at [www.sec.gov](http://www.sec.gov). Except as expressly required by applicable securities law, the Company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

### Overview

We are a blank check company formed under the laws of the State of Delaware on May 22, 2020 for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or other similar Business Combination with one or more businesses. We intend to effectuate our Business Combination using cash from the proceeds of the Initial Public Offering and the sale of the Private Placement Warrants, and forward purchase securities, our capital stock, debt or a combination of cash, stock and debt.

### Results of Operations

We have neither engaged in any operations (other than searching for a Business Combination after our Initial Public Offering) nor generated any revenues to date. Our only activities from May 22, 2020 (inception) through June 30, 2020 were organizational activities and those necessary to prepare for the Initial Public Offering, described below. We do not expect to generate any operating revenues until after the completion of our Business Combination. We expect to generate non-operating income in the form of interest income on marketable securities held after the Initial Public Offering. We incur expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses.

For the period from May 22, 2020 (inception) through June 30, 2020, we had a net loss of \$468, which consisted of formation and operating costs.

### Liquidity and Capital Resources

As of June 30, 2020, we had cash of \$25,000. Until the consummation of the Initial Public Offering, our only source of liquidity was an initial purchase of common stock by the Sponsor and loans from our Sponsor.

Subsequent to the quarterly period covered by this Quarterly Report, on July 27, 2020, we consummated the Initial Public Offering of 30,000,000 Units at a price of \$10.00 per Unit, generating gross proceeds of \$300,000,000. Simultaneously with the closing of the Initial Public Offering, we consummated the sale of 8,000,000 Private Placement Warrants at a price of \$1.00 per Private Placement Warrant in a private placement to our stockholders, generating gross proceeds of \$8,000,000.

On August 25, 2020, the underwriters exercised their over-allotment option in full, resulting in an additional 4,500,000 Units issued for total gross proceeds of \$45,000,000. In connection with the underwriters' exercise of their over-allotment option, we also consummated the sale of an additional 900,000 Private Placement Warrants at \$1.00 per Private Placement Warrant, generating total proceeds of \$900,000. A total of \$45,000,000 was deposited into the Trust Account, bringing the aggregate proceeds held in the Trust Account to \$345,000,000.

Following the Initial Public Offering and the sale of the Private Placement Warrants, a total of \$345,000,000 was placed in the Trust Account and we had \$912,561 of cash held outside of the Trust Account, after payment of costs related to the Initial Public Offering, and available for working capital purposes. We incurred \$19,840,171 in transaction costs, including \$6,900,000 in cash underwriting fees, \$12,075,000 of deferred underwriting fees and \$865,171 of other offering costs.

We intend to use substantially all of the funds held in the Trust Account, including any amounts representing interest earned on the Trust Account to complete our Business Combination. We may withdraw interest to pay franchise and income taxes. To the extent that our capital stock or debt is used, in whole or in part, as consideration to complete our Business Combination, the remaining proceeds held in the Trust Account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

We intend to use the funds held outside the Trust Account primarily to identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, and structure, negotiate and complete a Business Combination.

In order to fund working capital deficiencies or finance transaction costs in connection with a Business Combination, the Sponsor, an affiliate of the Sponsor, or our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete a Business Combination, we would repay such loaned amounts. In the event that a Business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our Trust Account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into warrants, at a price of \$1.50 per warrant at the option of the lender. The warrants would be identical to the Private Placement Warrants, including as to exercise price, exercisability and exercise period. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. The loans would be repaid upon consummation of a Business Combination, without interest.

We do not believe we will need to raise additional funds in order to meet the expenditures required for operating our business. However, if our estimate of the costs of identifying a target business, undertaking in-depth due diligence and negotiating a Business Combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our Business Combination. Moreover, we may need to obtain additional financing either to complete our Business Combination or because we become obligated to redeem a significant number of our public shares upon consummation of our Business Combination, in which case we may issue additional securities or incur debt in connection with such Business Combination. Subject to compliance with applicable securities laws, we would only complete such financing simultaneously with the completion of our Business Combination. If we are unable to complete our Business Combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the Trust Account. In addition, following our Business Combination, if cash on hand is insufficient, we may need to obtain additional financing in order to meet our obligations.

#### **Off-Balance Sheet Arrangements**

We did not have any off-balance sheet arrangements as of June 30, 2020.

#### **Contractual obligations**

We do not have any long-term debt, capital lease obligations, operating lease obligations or long-term liabilities.

The underwriters are entitled to a deferred fee of \$0.35 per Unit, or \$12,075,000 in the aggregate. The deferred fee will be waived by the underwriters in the event that the Company does not complete a Business Combination, subject to the terms of the underwriting agreement.

On July 2, 2020, we entered into a forward purchase agreement pursuant to which East Asset Management, an affiliate of the Sponsor, has agreed to purchase an aggregate of up to 5,000,000 forward purchase units, consisting of one forward purchase shares and one-half of one forward purchase warrants, for \$10.00 per unit, or an aggregate maximum amount of \$50,000,000, in a private placement that will close simultaneously with the closing of a Business Combination. East Asset Management will purchase a number of forward purchase units that will result in gross proceeds to us necessary to enable us to consummate a Business Combination and pay related fees and expenses, after first applying amounts available to us from the Trust Account (after paying the deferred underwriting discount and giving effect to any redemptions of Public Shares) and any other financing source obtained by us for such purpose at or prior to the consummation of a Business Combination, plus any additional amounts mutually agreed by us and East Asset Management to be retained by the post-business combination company for working capital or other purposes. East Asset Management's obligation to purchase forward purchase units will, among other things, be conditioned on the Business Combination (including the target assets or business, and the terms of the Business Combination) being reasonably acceptable to East Asset Management and on a requirement that such initial Business Combination is approved by a unanimous vote of our board of directors. In determining whether a target is reasonably acceptable to East Asset Management, we expect that East Asset Management would consider many of the same criteria as we will consider but will also consider whether the investment is an appropriate investment for East Asset Management.

### **Critical Accounting Policies**

The preparation of condensed financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. We have not identified any critical accounting policies.

#### *Recent accounting standards*

Management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on our condensed financial statements.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

As of June 30, 2020, we were not subject to any market or interest rate risk. Following the consummation of our Initial Public Offering, the net proceeds of our Initial Public Offering, including amounts in the Trust Account, have been invested in U.S. government treasury bills, notes or bonds with a maturity of 185 days or less or in certain money market funds that invest solely in U.S. treasuries. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

### **Item 4. Controls and Procedures**

#### **Evaluation of Disclosure Controls and Procedures**

Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial and accounting officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the fiscal quarter ended June 30, 2020, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based on this evaluation, our principal executive officer and principal financial and accounting officer have concluded that during the period covered by this report, our disclosure controls and procedures were effective at a reasonable assurance level and, accordingly, provided reasonable assurance that the information required to be disclosed by us in reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

#### **Changes in Internal Control over Financial Reporting**

There was no change in our internal control over financial reporting that occurred during the fiscal quarter of 2020 covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## PART II - OTHER INFORMATION

### Item 1. Legal Proceedings.

None.

### Item 1A. Risk Factors.

Factors that could cause our actual results to differ materially from those in this report include the risk factors described in our final prospectus filed with the SEC on July 24, 2020. As of the date of this Report, other than as described below, there have been no material changes to the risk factors disclosed in our final prospectus filed with the SEC.

*The securities in which we invest the funds held in the Trust Account could bear a negative rate of interest, which could reduce the value of the assets held in trust such that the per-share redemption amount received by public stockholders may be less than \$10.00 per share.*

The proceeds held in the Trust Account are invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act, which invest only in direct U.S. government treasury obligations. While short-term U.S. government treasury obligations currently yield a positive rate of interest, they have briefly yielded negative interest rates in recent years. Central banks in Europe and Japan pursued interest rates below zero in recent years, and the Open Market Committee of the Federal Reserve has not ruled out the possibility that it may in the future adopt similar policies in the United States. In the event that we are unable to complete our initial business combination or make certain amendments to our Amended and Restated Certificate of Incorporation, our public stockholders are entitled to receive their pro-rata share of the proceeds held in the Trust Account, plus any interest income not released to us, net of taxes payable. Negative interest rates could impact the per-share redemption amount that may be received by public stockholders.

*Our search for a business combination, and any target business with which we ultimately consummate a business combination, may be materially adversely affected by the recent coronavirus ("COVID-19") outbreak.*

On March 11, 2020, the World Health Organization officially declared the outbreak of the COVID-19 a "pandemic." The outbreak of COVID-19 or the outbreak of other infectious diseases could result in a widespread health crisis that could adversely affect the economies and financial markets worldwide, and the business of any potential target business with which we consummate a business combination could be materially and adversely affected. Furthermore, we may be unable to complete a business combination if continued concerns relating to COVID-19 restrict travel, limit the ability to have meetings with potential investors or the target company's personnel, vendors and services providers are unavailable to negotiate and consummate a transaction in a timely manner. The extent to which COVID-19 impacts our search for a business combination will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of COVID-19 and the actions to contain COVID-19 or treat its impact, among others. If the disruptions posed by COVID-19 or other matters of global concern continue for an extensive period of time, our ability to consummate a business combination, or the operations of a target business with which we ultimately consummate a business combination, may be materially adversely affected.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On July 27, 2020, we consummated the Initial Public Offering of 30,000,000 Units. On August 25, 2020, in connection with the underwriters' election to fully exercise their over-allotment option, we sold an additional 4,500,000 Units. The Units sold were sold at an offering price of \$10.00 per unit, generating total gross proceeds of \$345,000,000. Wells Fargo Securities acted as sole bookrunner. The securities in the offering were registered under the Securities Act on a registration statement on Form S-1 (No. 333-239677). The Securities and Exchange Commission declared the registration statement effective on July 22, 2020.

Simultaneous with the consummation of the Initial Public Offering and the full exercise of the over-allotment option, we consummated the private placement of an aggregate of 8,900,000 warrants at a price of \$1.00 per Private Placement Warrant, generating total proceeds of \$8,900,000. The issuance was made pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act.

The Private Placement Warrants are identical to the warrants underlying the Units sold in the Initial Public Offering, except that the Private Placement Warrants are not transferable, assignable or salable until 30 days after the completion of a Business Combination, subject to certain limited exceptions.

Of the gross proceeds received from the Initial Public Offering, the full exercise of the over-allotment option and the sale of the Private Placement Warrants, \$345,000,000 was placed in the Trust Account.

We paid a total of \$6,900,000 in underwriting discounts and commissions and \$865,171 for other offering costs related to the Initial Public Offering. In addition, the underwriters agreed to defer \$12,075,000 in underwriting discounts and commissions.

For a description of the use of the proceeds generated in our Initial Public Offering, see Part I, Item 2 of this Quarterly Report.

**Item 3. Defaults Upon Senior Securities.**

## SIGNATURES

In accordance with the requirements of the Exchange Act, the registrant caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

### EAST RESOURCES ACQUISITION COMPANY

Date: September 4, 2020

By: /s/ Terrence M. Pegula  
Name: Terrence M. Pegula  
Title: Chief Executive Officer  
(Principal Executive Officer Officer)

Date: September 4, 2020

By: /s/ Gary L. Hagerman, Jr.  
Name: Gary L. Hagerman, Jr.  
Title: Chief Financial Officer  
(Principal Accounting and Financial Officer)

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER  
PURSUANT TO RULE 13A-14(A) UNDER THE SECURITIES EXCHANGE ACT OF 1934,  
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Terrence M. Pegula, certify that:

1. I have reviewed this quarterly report on Form 10-Q of East Resources Acquisition Company;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the registrant, is made known to us by others within those entities, particularly during the period in which this report is being prepared; and
  - b) (Paragraph omitted pursuant to SEC Release Nos. 33-8238/34-47986 and 33-8392/34-49313);
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report my conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
